

HYSL Shared photos

To download a picture:

1. click on the picture
2. at the top of the picture - select "actions"
3. select "view all sizes" in the drop down menu
4. select "original"
5. select "down load"

In this way you get the full resolution digital image and it should create high quality prints if anyone wants to make prints - or make a sharp and clear desk top background.
